### ABOUT HÅG:

Since 1943, Norwegian HÅG has worked with the development, manufacture and marketing of unique seating solutions. Throughout the years, we have received numerous prizes and awards for our designs. HÅG is a leading brand in Europe, and you will find the HÅG brand practically everywhere around the globe.

Our mission is to provide the best seating solutions by bringing movement and variation to the work place. HÅG is part of Scandinavian Business Seating which is Scandinavia's leading, and among Europe's largest manufacturers of office seating.

# HÅG

# HÅG design values

- unique reasons for choosing HÅG

Since 1943, HÅG has built a strong tradition in developing and manufacturing chairs for improving productivity and ergonomics in the work place. Our philosophy is based on the belief that humans are designed to move – not to sit still. We continuously strive to develop the best innovative seating solutions for public and private businesses and users worldwide. HÅG's four design values are unquestionable guiding principles when developing a HÅG chair. Without these – there is no HÅG chair.

## VISUAL DESIGN

HÅG offers modern Scandinavian design – minimalistic, elegant and with advanced functionality that is visually appealing, intuitive and user-friendly. Our design is human centered – we create products that work for you. The options and variations are abundant. You will always be able to find a chair that meets your needs and visually reflects your personality.

## DYNAMIC ERGONOMICS

The common denominator in all HÅG's seating solutions is sitting in balance. This is the best starting point for movement. From a point of balance you can lean forward just as easily as you lean backwards. The chair naturally follows as you change to your next sitting position – without you even thinking about it. Dynamic Ergonomics has contributed to putting HÅG on the global map. It's about chairs that effortlessly move the whole body, hence increasing productivity and improving the user's wellbeing.

## ENVIRONMENT & SUSTAINABILITY

Focus on the environment has the highest priority in HÅG and is a guiding principle in the development of all our products. We reduce the environmental impact by extensive use of recyclable and already recycled materials and by avoiding the use of chrome, PVC and glue in our products. Together with using only renewable energy this ensures a lowest possible carbon footprint – thinking cradle to cradle for all our chairs.

## QUALITY

Quality is about never compromising when it comes to product development, technological processes or choice of materials. HÅG provides a 10 year guarantee on all products and 5 years 24/7 guarantee on selected task chairs. HÅG task chairs are tested in accordance with both EN 1335 (European office chair standard) and ANSI Bifma (American standard). A selection of our task chairs are in addition tested to British Standard BS 5459-2 which is the most commonly used standard for intensive use (24 hours).

# HÅG Capisco®

The Saddle Chair™ providing unlimited freedom of movement

HÅG Capisco is inspired by the horseman's saddle and sitting posture. No one sits as actively as a rider in the saddle. When you work seated on a HÅG Capisco, you'll have perfect freedom to move. This is vital to avoid tiredness and work related injuries.

## UNIQUE FORM & FUNCTION

HÅG Capisco stands out from all other chairs and gives personality to any room and work place. The special shape of the back rest gives your body support in numerous sitting positions without limiting your ability to move. The Saddle Seat™ is shaped to inspire you to sit like the active horseman in his saddle, allowing you to move freely and to work high and low. No other task chair is so well adapted to work surfaces of different heights. Sit down and easily adjust it from a normal table height to semi-standing position.

## VERSATILITY

Its award-winning design fits into any work place where you work and move in a different way as well as in creative meeting rooms and collaboration areas. HÅG Capisco is also a great chair for dentists, surgeons and other medical professionals who work in semi-standing positions or when used back-to-front so that the back panel supports the chest. Since 1984 HÅG Capisco® has been sold all around the world to office workers, university students, surgeons, architects, designers, receptionists, engineers, lecturers, lawyers and opera singers – because of its inimitable form and functionality, and its unlimited versatility.

LEANING FORWARD.  
UP AND DOWN.

HÅG Capisco 8127

## ADJUSTMENT FEATURES

A HEADREST	D BACK HEIGHT
B SEAT HEIGHT	E BACKWARD TILT TENSION
C SEAT DEPTH	F LOCKABLE TILT

- 1. ADJUSTABLE HEIGHT**  
The chair can be adjusted from normal sitting height to a semi-standing position.
- 2. FOOT SUPPORT**  
Provides a comfortable way to vary the position of your feet.
- 3. THE SADDLE SEAT**  
The unique shape of the back inspires lots of movement and new sitting positions. The saddle seat gives you an upright sitting posture and a natural curvature in your lower back.

- 4. THE HEADREST**  
Gives you rest and support for shoulders, neck and head. The gap between the chair's back and the headrest allows more freedom of movement. (standard on models 8107 & 8127)
- 5. HÅG STEP UP®**  
(optional) Offers you two extra levels to place your feet on.
